

Cocoroco Workspace

Bring your own device - remote work you can trust

Build your CX team now!

Cocoroco workspace

Bring all your apps and data into one secure, unified workspace. Embrace remote work with trust and gain great productivity insights.

User experience

With single sign-on (SSO) and multi-factor authentication (MFA), your company resources are protected, and employees stay productive. No VPN needed.

Flexibility and integration

Connect your team's working day to the secure workspace and integrate with default systems you're used to working with.

Trusted Azure solution

Our Cocoroco Workspace solution is powered by Microsoft Azure and GDPR & CCPA compliant and ISO27001 & PCI DSS certified.

Cocoroco Workspace

Secured workspace for your team

Whitelisted actions only

Data can't be transferred between workspace and own device

All activity is recorded
